

## PRESS RELEASE

### FOUR NEW INCENTIVE PROVIDERS JOINED THE GREEN AWARD SCHEME - POSIDONIA 2022

During the Posidonia International Shipping Exhibition 2022, as the Chairman of the Green Award Foundation, I had the pleasure to welcome in the Green Award scheme four successful and worthwhile companies, leaders in the fields of shipping they represent as our new incentive providers.

In particular:

Bureau Veritas (<https://www.bureauveritas.gr/>), the world's leading ship classification society and offshore safety and verification body,

IQ Solutions (<https://www.iqsolutions.gr/>), a digital integrator and an IT Services Provider, focusing on innovative ICT solutions,

LEVER GROUP (<https://www.leverteam.gr/>), Hi-Tech Machine shop and ingenious repairs for OGVs, Yacht Refit and repairs,

Lagersmit (<https://www.lagersmit.com>), a Dutch company providing best sealing solutions for ships, pumps and tidal turbines.

The above mentioned companies have managed to conquer a new milestone in their corporate history and have joined our green team. I am sure that - from today - they are committed to achieving the Foundation's objectives, mission and vision with a unique orientation on environmental excellence and safety in shipping.

I am sure, that as new vital members of this global green team, you will wisely use the Green Award program as a tool to improve the environmental and safety standards in shipping.

Welcome on board  
Bureau Veritas,  
IQ Solutions,  
Lever Group and

Lagersmit!

We are delighted to have you alongside to this wonderful voyage!
